

# PRODUCTIVITY

Real-time monitoring, analytics, and alerts on Production and Productivity KPIs

## OUR USP'S

Compare plant OEE vs Planned Utilization in real-time.

Check actual production vs planned and identify system bottlenecks.

Generate early warning alerts for downtimes and bottlenecks.

## We promise. We deliver.

### World's Leading Manufacturer of Industrial Products

Roll out industry 4.0 products and solutions across plants to significantly improve opportunity for insourcing, reduce unplanned downtime & reduce response time from order to delivery.

**20%**  
OEE improvement

**30%**  
Reduction in average order to delivery lead time

### Productivity Prodigy

Visualise and track machine performance indicators in real time, book losses and defects

### Operational Excellence

Leading and Lagging process, cycle time optimization.

"We rolled out Datonis Digital Factory – productivity App across multiple plants and it has already helped us discover significant opportunity to improve throughput. The app has enabled us to bring focus to the operations excellence initiatives in the plants."

**Director, Operations**
